

# Fibre optics at Lakeside

We want to pass along information about iLox fibre optics and encourage you to sign up!  
Please share this.

---

Are you frustrated with your current internet service?

Do you have to wait to download emails and documents?

Does your movie get interrupted during the rainy season?

Do you have trouble streaming movies, games or books?

Do you miss seeing your grand children on Facetime?

On a personal level, Marvin and Barbara, have both Telmex and Telecable at home and still suffer poor bandwidth, poor service and high costs!

On a business level, Lake Chapala Real Estate has trouble conducting business, running several devices, uploading videos, using cloud services, streaming videos - all at extremely high monthly costs for this low quality service.

That's why we are happy and excited about iLox fibre optics!

---

# NOTES

After some research, Lake Chapala Real Estate, has determined that house values can increase up to 8% with fibre optic broadband access. Please refer to these links

- [My Tru Fiber](#) , [Realtor Mag](#), [Spirit Telecom](#). Percentages at Lakeside may be even higher with our additional attributes of weather, cost of living and location.

We see an opportunity for huge economic development with more international businesses, drawing a younger demographic of professionals and services to Lakeside.

The cost difference between the existing Lakeside services and iLox, the stability and quality of fibre optics vs cable and the increase in house values, make this a very good investment for your home and service provided.

## ADDITIONAL LINKS/INFO

- iLox Telecomunicaciones is the telecom division of TV Rey de Occidente, S.A. de C.V.
- [FAQs](#) about the product, service and company
- [Company registration](#) for TV Rey (iLox) with Profeco in English

(Note the Tercera Clausula stating your payment will be refunded if the project is cancelled or iLox is unable to deliver the service to your home. Both parties will sign this contract if prepaying.)

- [Service Contract](#) for all TV Rey (iLox) subscribers in English
- Agreement with [CFE](#) in Spanish
- Check out the iLox website at [iLox Telecom](#)
- Underground installation in gated communities will require extra costs at your own expense. If you pledge and prepay and service cannot be provided, iLox will refund your money. Please contact iLox for reputable contractors to survey your community and quote the installation costs.

## PROCESS

1. Fill in the [on-line form](#) to express interest in having high speed internet. No obligation, just a survey to show iLox there is significant interest in the project.
2. If you're ready to sign a contract and pay 1 year in advance, [click here](#). They need approximately 200-300 prepaid subscribers for iLox to start the project. The deadline is approaching soon!
3. Return your signed contracts and receipt of Bancomer proof of payment to iLox and they will then send confirmation.
